THE AMERICAN SCHOOL IN ENGLAND

Records Retention Policy

Document

Information Sharing Category	PUBLIC
TASIS Document reference (Org, Doc, version, date)	TASIS_Records_Retention_V_1_0_20062018
Version	1.1
Date published	20 June 2018
Date ratified by Head of School	20 June 2018
To be reviewed before	20 Jun 2019
Responsible area	Head of School

TASIS is committed to safeguarding and promoting the welfare of students and expects all staff and volunteers to share this commitment. It is our aim that all students fulfil their potential.

1. Related Policies

1.1. This policy refers to other TASIS policies within the text and the following should be read/referred to in conjunction with this policy:

- a. Data Protection Policy
- b. E-Safety Policy
- c. Code of Conduct Policy for Faculty and Staff
- d. Confidentiality and Information Sharing Policy

1.1. These policies can be accessed via our [website](#).

2. Purpose

2.1. The purpose of this policy is to specify TASIS England's (the School) guidelines for retaining different types of personal data and a structured approach to reviewing and destroying records in relation to the School.

3. Scope

3.1. The scope of this policy covers all the School's data and information stored on company-owned, company-leased, and otherwise company-provided systems and media, regardless of location. These records may be created, received or maintained in hard copy or electronically.

4. Policy Statement

4.1. The need to retain records and data varies widely with the type of data. Some personal data can be immediately deleted once the purpose for it being held has been completed, and some must be retained until reasonable potential for future need no longer exists.

4.2. This policy provides guidelines to ensure that all applicable regulations and the School's rules on records and data retention are consistently applied throughout the School.

5. Reasons for records and data retention

5.1. Some records and data must be retained in order to protect the School's interests, comply with regulatory requirements, preserve evidence, and generally conform to good practices. Data and information may be retained for one or several of the following reasons:

- a. Legal requirements
- b. Regulatory requirements
- c. Possible litigation
- d. Accident investigation
- e. Security incident investigation
- f. Intellectual property preservation

The current version of any policy, procedure, protocol or guideline is the version held on the TASIS website. It is the responsibility of all staff to ensure that they are following the current version.

- 5.2. **Retention periods** - Different types of data will be retained for different periods of time. For more details, please refer to the Appendix – Records and Data Retention Schedule below.
- 5.3. **Retention of encrypted data** - If any information retained under this policy is stored in an encrypted format, considerations must be taken for secure storage of the encryption keys. Encryption keys must be retained as long as the data that the keys decrypt is retained.
- 5.4. **Data duplication** - When identifying and classifying the School's personal data, it is important to also understand where that data may be stored, particularly for duplicate copies, so that this policy may be applied to all duplicates of the information and the data is discoverable to meet Subject Access Requests (refer to our Data Protection Policy). Personal data should not be duplicated unless necessary to perform the process for which it is held.
- 5.5. **Data destruction** - When the retention timeframe expires, we will actively destroy the records and data covered by this policy in a confidential manner (e.g. shredding for paper records). For destruction of electronic storage devices or other non-paper records, please contact the IT Manager for guidance.

If a processor/user (i.e. member of Staff or Faculty) feels that certain data should not be destroyed, they should identify the data to their supervisor so that an exception to the policy can be considered. Since this decision has long-term legal implications, exceptions will be only be approved by a member or members of the School's Senior Leadership Team (SLT).

The School specifically directs users not to destroy data in violation of this policy. Destroying data that a user may feel is harmful to themselves, or destroying data in an attempt to cover up a violation of law or School policy is forbidden.

6. Responsibilities

- 6.1. **Compliance, monitoring and review** - All School Staff and Faculty are responsible for processing personal data in full compliance with this and all related and relevant policies and procedures.
- 6.2. **Reporting in case of a personal data breach** - In the case of possible data breach, the staff or faculty member(s) who first identifies the breach or incident must immediately report all details of the incident to the Data Protection Officer (DPO). The DPO is required to deal with and report a personal data breach in accordance with the School's Data Breach Procedure.
- 6.3. **Records management** - Staff must maintain all records relevant to administering this policy and procedure in electronic form in a recognised School recordkeeping system.

The current version of any policy, procedure, protocol or guideline is the version held on the TASIS website. It is the responsibility of all staff to ensure that they are following the current version.

Appendix – Records and Data Retention Schedule**Governors**

Basic file description	Data Protection Issues	Statutory Provisions	Retention Period	Action at the end of the administrative life of the record

		<p>Staff" November 2005</p>			<p>copy provided to the person concerned. The purpose of the record is to enable accurate information to be given in response to any future request for a reference if the person has moved on. It will provide clarification in cases where a future DBS Disclosure reveals information from the police about an allegation that did not result in a criminal conviction. And it will help to prevent unnecessary reinvestigation if, as sometimes happens, an allegation re-surfaces after a period of time. The record should be retained at least until the person has reached normal retirement age or for a period of 10 years from the date of the allegation if that is longer."</p>
